

Directions for making Photosynthesis and Cellular Respiration Foldable

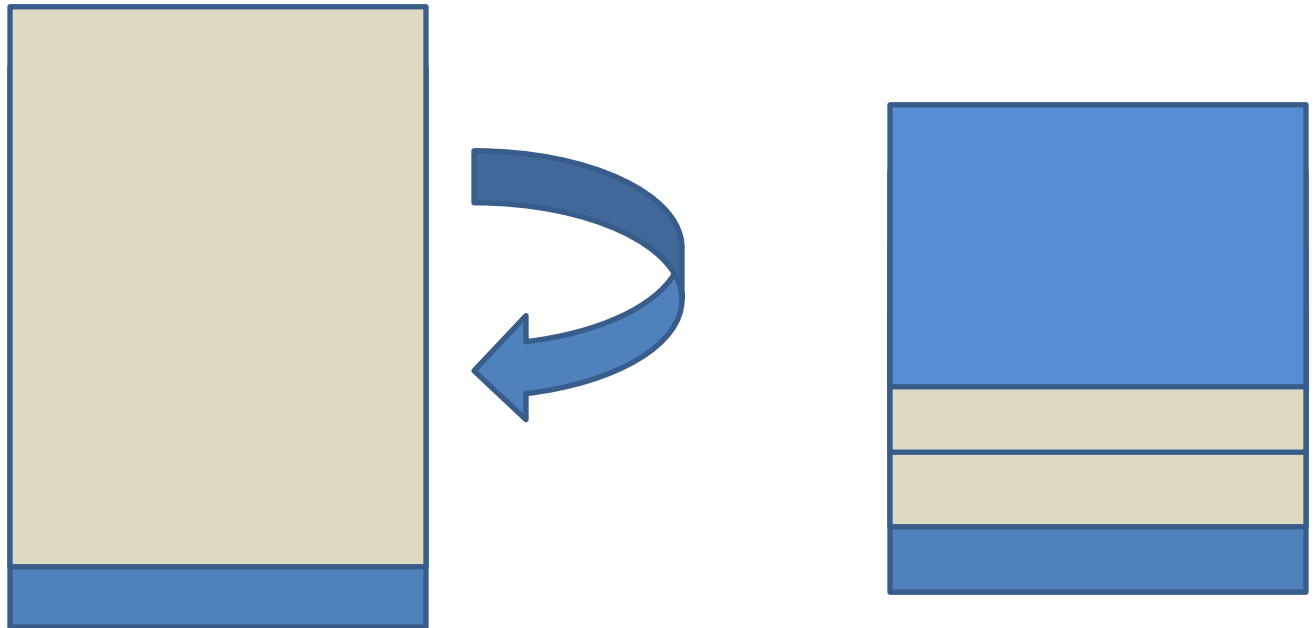

Harvey

Bio

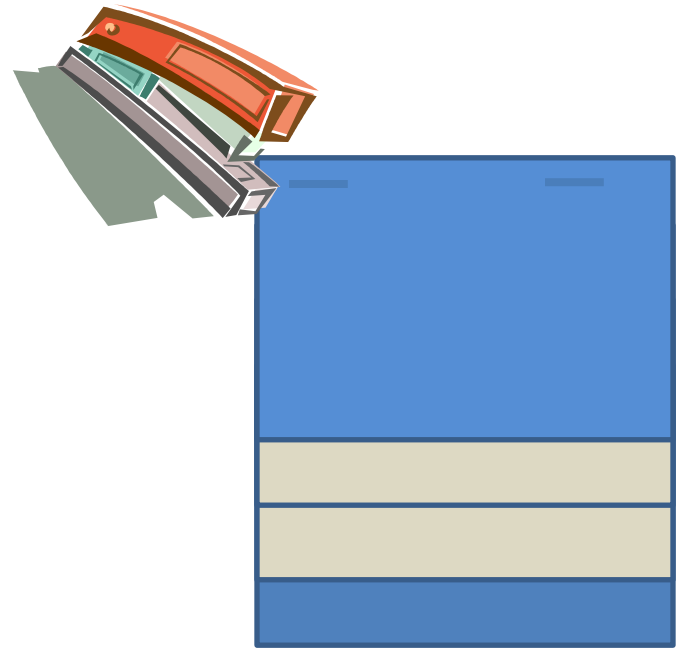

1. Take 2 pieces of paper and layer them so that about 5cm of each paper is showing.

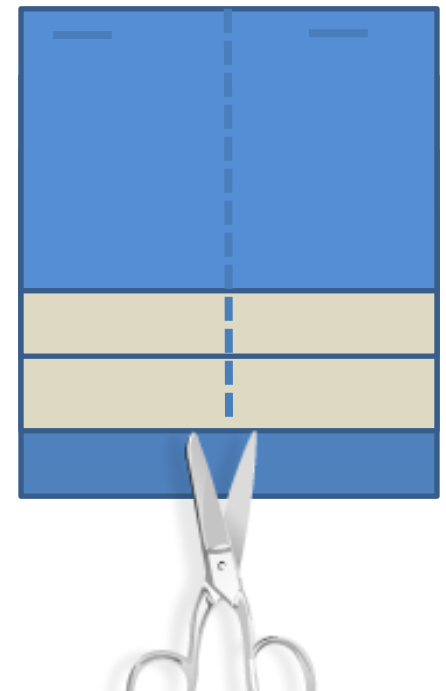

2. Fold the paper in half.

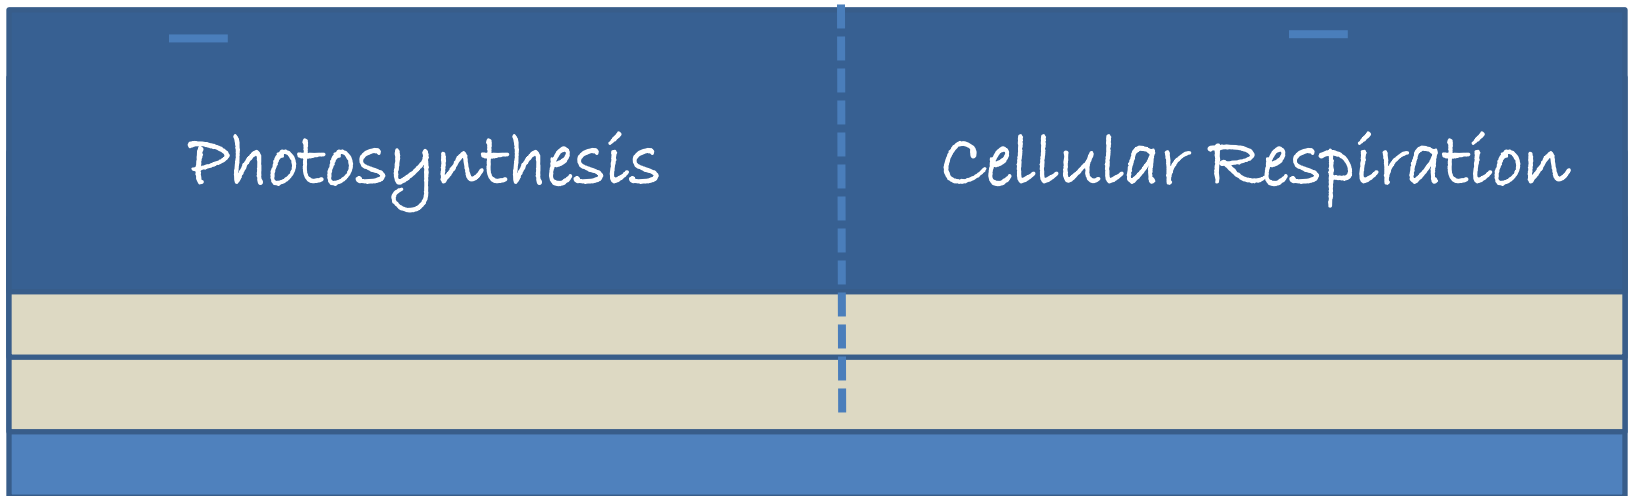

3. Staple along the top edge.

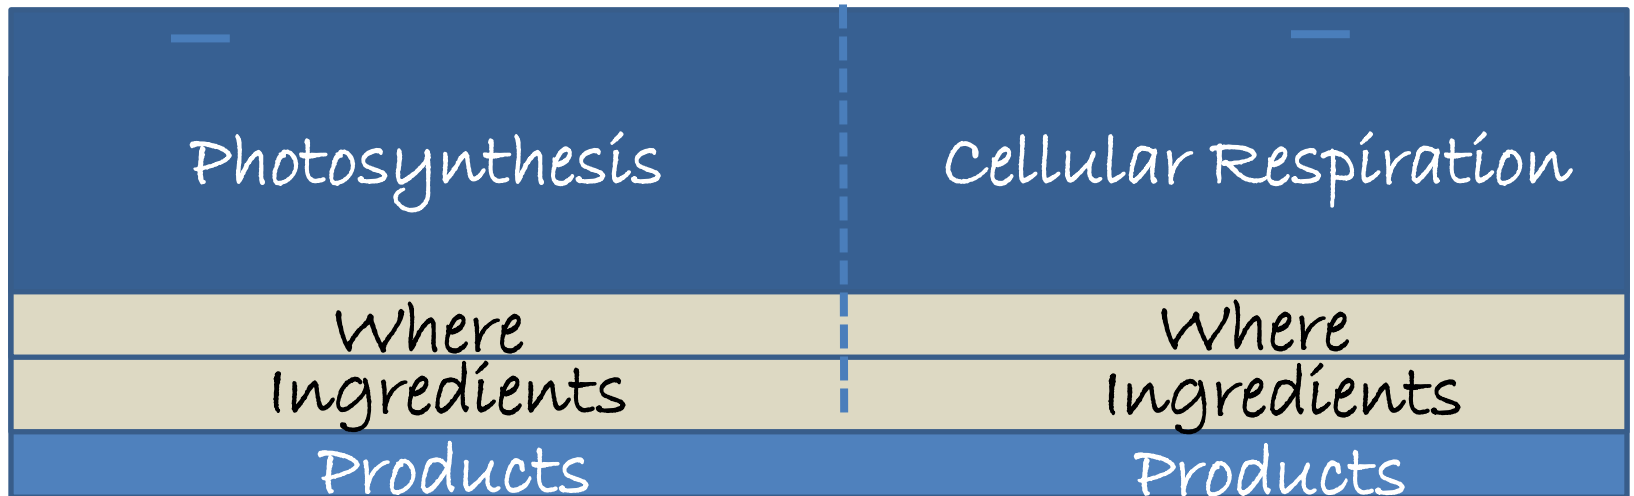

4. Cut through the top three layers,
at the middle of the book.

5. The top layer gets a title.

6. The next layers get titles.

Under each layer write the following information.

Where

- Chloroplasts

Ingredients

- Sunlight (energy)
- Carbon dioxide (CO_2)
- Water (H_2O)

Products

- Oxygen (O_2)
- Food (glucose)

Where

- Mitochondria

Ingredients

- Oxygen (O_2)
- Food (glucose)

Products

- carbon dioxide (CO_2)
- water (H_2O)
- energy
